- **Languages, Frameworks & Technologies:** React, JavaScript, CSS, Bootstrap, Material UI, AngularJS, REST API, HTML
- **Database:** Oracle-DBA, Oracle SQL, MySQL
- **Operating Systems:** Windows, Linux
- **E-commerce platform:** Magento

- **Code Version Control Software:** Git (GitHub), Subversion (SVN)
- **Tools**: Atlassian Tools (JIRA, Confluence), Visual Studio Code, Figma, Microsoft Package, Postman
- **Languages**: English, Ukrainian, and Rus

PROFESSIONAL EXPERIENCE

Frontend Developer | Code the Dream   **05/2023 - Present**

E-commerce Music App BeatBazaar - GitHub

- Employed Agile methodologies while collaborating as a software engineer on the front-end development of BeatBazaar, an E-commerce Music App
- Implemented a robust Redux store to efficiently manage the shopping cart state, enhancing the user experience
- Designed and integrated a responsive checkout page with Stripe payment processing gateway, leading to optimized conversion rates
- Engineered a visually appealing and responsive checkout completion page with real-time Stripe payment gateway updates and comprehensive order summaries
- Developed reusable and performant React components, streamlining user interactions and functionality for add-to-cart and wishlist features.

Pet Adoption App Adopt the Dream - GitHub

- Led a 5-person development team, managed the project in Jira, and ensured efficient task distribution and collaboration, resulting in the on-time completion of a feature-rich project within two months, highlighting our team's effectiveness and productivity.
- Implemented robust front-end authentication features, optimizing the Login/SignUp processes. Engineered dynamic User Profile pages, integrating authentication seamlessly for an enhanced and secure user experience resulting in an improved authentication and registration process.
- Developed and implemented filters for the project, allowing users to refine their search based on specific criteria, resulting in a more personalized real-time browsing experience.
- Implemented protected routes functionality, ensuring that certain pages were accessible only to authorized users, enhancing the security of the application.

Database Developer | LLC Legal Agency "Bona Fide"   **06/2014 - 11/2017**

- Designed a new relational database schema and implemented a new database (DB) to replace the old one
- Integrated new DB with the Customer Relationship Management (CRM) which resulted in 3x faster system performance and reduced glitches and freezing
- Performed successful data migration processes, integration of new life cycles, and full support

GlobalLogic LLC

Junior Developer   **11/2013 - 05/2014**

- Developed a UI Portal for integrating, auto-scaling, auto-deploying, a highly redundant solution for the cloud-based Data Center that eliminated or minimized the need for expensive onsite hardware, software, and storage infrastructure
- Developed front-end of WEB application (UI Portal) for cloud-based integration: Troubleshot bug-fixes and prepared new releases. Resulted in 20% increase in bug fix resolution over the year
- Implemented cross-browser portal usability for 3 most popular web browsers (Chrome, Firefox, Safari)

Associated Developer   **11/2012 - 11/2013**

- Developed a client-server analyzing system for Texas Instruments (TI) customer, visualizing statistical test results on charts within a web app for QA and developer teams. Resulted in 2X faster speed of identifying, troubleshooting, and fixing errors on Motorola Android devices, increasing team productivity by 15%
- Designed client-side and server-side architecture, developed a well-functioning database, and built a web application with an appealing visual design

EDUCATION

Kyiv National University of Civil Engineering and Architecture, Kyiv, Ukraine

Master of Science (MS) in Computer Science *Equivalent to U.S. Master's degree in the field from an accredited institution according to World Education Services, New York, 2022. Proof of evaluation is available upon request.*

PROFESSIONAL CERTIFICATES

Front End Development: Javascript, React Certificate by "Code The Dream", USA, 05/02/2023
